# **Pando**

decorative cookerhoods

In this catalogue, we present the union of two brands specialised in kitchen equipment: **Pando** and DuPont™ Corian®.

A union that merges the experience and expertise of **Pando** as a manufacturer of domestic kitchen hoods and DuPont™ Corian® as a creator and supplier of one of the most versatile materials for kitchen work surfaces.

The aim of this collaboration is DESIGN and INTEGRATION. It is a constant search for innovative solutions to satisfy both professionals and domestic users with MODERN, ORIGINAL and EFFECTIVE products.

**Unique hoods for unique people.**

# OUR COMPANY

## EXPERIENCE

Our Company has extensive experience acquired through more than 35 years in the business of designing, manufacturing and commercialising extractor hoods. Inoxpan, S.L. (Pando) began operations in Spain in 1979, as artisans specialised in crafting stainless steel.

Pando was soon to specialise as a manufacturer of extractor hoods for domestic kitchens. Continuous development within our own R&D&i and manufacturing unit has made Pando a clear leader in the Spanish market, in the segment of "kitchen designers in retail outlets". This is our main focus, together with architects, interior designers, who see Pando as the only manufacturer able to cater for all their needs.

Soon Pando was to expand to other countries such as France and Portugal, where our presence has been consolidated for many years, as well as into the international markets such like the UK, Netherlands, Switzerland, Mexico, US, ...)

**Pando**

# OUR VISION

## MANUFACTURER

Our position as a manufacturer enables us to be open to a wide range of possibilities regarding design, innovation and technical development, offering crafted products using state of the art equipment.

## EFFICIENCY & ENVIROMENT

Our constant investment in Research and Development enables us to offer advanced products ... silent and low energy consumption, thus offering comfort as well as savings. We develop joint projects with Universities, to progress together in the technological improvement of our products. Eco energy efficiency and the development of soundproofed systems allows us to use high performance and low consumption motors (Our "eco" motors), regardless of their location: Indoor motors, Outdoor, on the roof or wall, LED lighting for all products, etc.

**Pando**  
decorative cookerhoods

# DESIGN

## R&D&I

With regard to Design, we work with both internal and external design teams, enabling us to offer adaptability and a good image in the complex world of the kitchen. The basic raw material we use for manufacturing is Stainless steel (With different finishes), which we combine and sometime replace with glass, aluminium and even the prestigious "Solid Surface" by DuPont™ Corian®.

## for DECORATIVE SOLUTIONS

Our products offer a complete solution to any Decorative or integration need that may arise in kitchen projects. From the well known decorative wall or island hoods, to the groups fitted onto furniture or the successful hoods integrated into the ceiling, allowing open designs in large spaces.

# & integral COOKING

**Pando**  
35 / anniversary

In 2014, the 35<sup>th</sup> Anniversary of Pando, we launched our Integral Cooking collection of ovens and induction hobs, thus completing the cooking and extraction range in the kitchen.

Without doubt, Pando offers one of the best and largest ranges of products on the market. Our experience evolved since 1979 is our guarantee.

# FRONT

Stainless steel &  
DuPont™ Corian®

Stainless steel body with front panel made of backlit DuPont™ Corian®. The avant-garde design of the tray conceals the filter system, achieving a unique and compact style. A perfect hood to combine with worktops and cookers made with the same material.

# DETAIL

Stainless steel &  
DuPont™ Corian®

A wall mounted solution combining stainless steel, DuPont™ and Corian® and LED lighting. The clean lines and strong geometric form allow it to be integrated into any modern kitchen.
